

Create Your Own Treasure Map!

Now it's your turn to join the quest—What promise from God do you love best?
Is it His love that never ends, or peace He gives when He defends?

Draw your own map with symbols and clues, of treasures from God you don't want to lose.
A heart, a rainbow, or maybe a star—to remind you how loved and treasured you are.

Matthew 6:21 — "For where your treasure is, there your heart will be also."

Reflection Activity

Let's take a moment to look around—can you **find God's treasures** in the world around you?

1. Think about a promise from God that's special to you.
(Need help? Look back through the story for clues about His love, peace, joy, or guidance.)
2. Draw a treasure map with your favorite symbols!
(Add fun labels, arrows, or paths to represent God's promises in your life.)

What is a Reflection Activity?

A **Reflection Activity** is a simple, engaging, and developmentally appropriate exercise designed to help young children summarize and process what they have just learned. These activities strengthen connections to new and emerging concepts while also supporting language development.

To be most effective, the activity should match the child's developmental level, with a parent or caregiver providing guidance throughout the reflection process. Reflection activities should always be a **positive and enriching experience**, reinforcing learning in a way that is both meaningful and enjoyable.
